For those looking to add a bit of punch to their day or those simply looking for a natural addition to their regular supplement needs, Magnafem™ can help you be in charge of your energy again.

- Helping boost metabolism
- Supporting physical and mental energy
- Supporting healthy hormone balance
- Supportig overall well-being

An extremely weak emission of electromagnetic waves emitted by biological systems in the optical range of spectrum is known as a biophoton emission. This phenomenon is observed in all living cells of plants, animals and human beings. It cannot be seen by the naked eye but can be measured and recorded using a special equipment. It have been found that a biophotons emission is the steering mechanism behind all biochemical reactions.

Bio Resonance Technology (BRT) gives us a possibility to record a holographic image of the unique biophotons network that is characteristic for every existing herb or plant, enhance it substantially and after that “recorded” back to the carrier making its original healing qualities much stronger. This way BRT makes the best components that we use in our products, unbeatable. Using of BRT allows us to significantly increase the efficacy of the supplements, and reduce the dose of the formula.

INGREDIENTS:

Mucuna Pruriens (Kapikacchu), Saraca Indica (Ashoka), Ashwagandha, Asparagus Racemosus (Shatavari), Tribulus Terrestris (Gokhshur), Turmeric (Curcumin), Inositol

Curcumin, an active compound in Turmeric, is known for its antioxidant and anti-inflammatory activity that can promote healing. Studies have found that Turmeric may have pain-reducing power equal in some cases to that of prescription and over-the-counter medications.

Mucuna Prurita is an aphrodisiac, bolstering healthy sexual energy and libido. It also supports normal fertility, healthy sperm and ova, proper functioning of the reproductive organs, and appropriate genital secretions.

Ashwagandha is known to enhance the sex lives of men since the time of Kama Sutra. The plant has been mentioned in one of the oldest texts about sexuality and not just that, growing evidence in modern science is also suggesting the same now. Ashwagandha is safe and is powerful.

Saraca Indica (Ashoka) has been used for centuries, and it is a well-known female tonic. The herb also has a dry and cold quality that can reduce any inflammation in the reproductive tissues. It is known to treat a variety of sex problems in women - low libido, arousal difficulties, lubrication problems, and orgasm troubles.

Shatavari is an ancient herb that has been used for thousands of years to promote healthy hormonal and reproductive functions. Both the Ayurvedic and Himalayan medicine systems have utilized Shatavari to support reproductive health and sexual potency in women.

Tribulus Terrestris (Gokhshur) extract helps treat a variety of sex problems. Apart from working as a natural aphrodisiac, Gokhshur helps treat a variety of sex problems in women—low libido, arousal difficulties, lubrication problems, and orgasm troubles
